PROCESSING

Shrimps can be processed and packed in different shapes. After getting shrimps from sea or pond they are being transported to a processing facility to be processed, sorted and packed. At this stage, depending on the processing method and the cleaning that is done on the product, one of the above abbreviations will show the condition of the product.

Available as:

HOSO

head on,
shell on

HLSD

headless,
shell on

PDTO

peeled,
deveined,
tail on

PUD

peeled,
undeveined

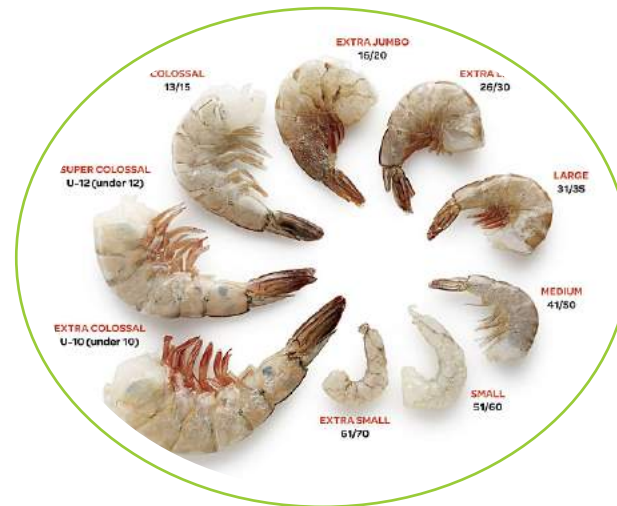

PD

peeled,
deveined

- **41-50 Medium**
- **51-60 Small**
- **61-70 Extra Small**

PACKING AND DELIVERY

Frozen packing:

Shrimps are packed in 2 kg or 10 kg boxes and stored in industrial freezers to be delivered later on cold storages.

Fresh Packing:

Shrimps are transported in iced containers to be packed as fast as possible and delivered by air cargo within the same day. For this type of delivery we use cool boxes (Boxes that are filled with ice and shrimps placed inside)

Retail packing:

We can also pack shrimps in food suited metalized packs in 500 grams, 1 kg, 2 kg with customized branding for retails purposes.
